# LECTURE SLIDES AND EXAM GUIDELINE

The screenshot shows a Moodle page with a section titled "General Information" which is circled in red. Below this section, there are two links: "Lecture Slides" (11.5 MB PDF document) and "Exam Guideline" (76.9 KB PDF document). Below these links, there is a section titled "Installing MySQL" with a link to the MySQL Workbench download page. The text below the link states: "It is expected in the fourth semester that you are able to install the appropriate software yourself. If you have problems, you can watch online tutorials. Here are some videos which might be helpful too." and a note: "Note: The videos do not refer to the latest version. Exchange with other students. You can help each other via the Moodle room in the forum." Below the text is a video player with a play button and the title "How To Install MySQL".

Exam Guideline 76.9 KB PDF document

Installing MySQL

You can download the MySQL Workbench using the following link:  
<https://dev.mysql.com/downloads/workbench/>

It is expected in the fourth semester that you are able to install the appropriate software yourself. If you have problems, you can watch online tutorials. Here are some videos which might be helpful too.

Note: The videos do not refer to the latest version. Exchange with other students. You can help each other via the Moodle room in the forum.

How To Install MySQL

# EXAM

## FIRST PAGE

- ❑ You have 120 Minutes (2 hours) time.
- ❑ Write on this 1st sheet your name and student ID (matriculation number).
- ❑ Write on every sheet your student ID in the page header (matriculation number).
- ❑ The examination consists of XXX sheets incl. this sheet. Please check immediately!
- ❑ Do not unstaple the sheets!
- ❑ Write your solutions on the place following the assignment. If you run out of space, use the backside of the sheets (do not forget to indicate the assignment number!).
- ❑ Do not use red ink or erasable pens!

## EXAM

### FIRST PAGE

- This is a closed book, closed notes exam. You may use 2 sheets (4 pages) of notes.
- Electronic devices are not allowed! For example, no mobile phones!
- There is a Zero-Tolerance Cheating Policy! Avoid behavior that could be misinterpreted!
- Unreadable or incomprehensible parts will not be counted. Same for parts that are not clearly associated with an assignment. If you make corrections, clearly indicate what your valid solution is.
- Writing full sentences raises the possibility of max points because you create context rather than just keywords.
